Control Assessment

Metric	Value
Framework	ISO27001
Version	2022
Control Id	A.8.2
Title	Privileged access rights

Metric	Value
Status	PASS
Score	100
Coverage	100%
Assessment Scope	Technical evidence observation only
Assessment Limitation	This PASS indicates successful observation of the technical evidence used by this test. It does not by itself certify full ISO 27001:2022 A.8.2 compliance. Organizational policies, approvals, access reviews, least-privilege requirements, joiner/mover/leaver processes, and other relevant evidence require separate assessment.

Evidence Retention

Metric	Value
Azure Records Collected	949
Entra Records Collected	7
Azure Records Embedded In Report	25
Entra Records Embedded As Raw Data	0
Control Evidence Embedded	2
Note	Full collected evidence remains available to the live collection and assessment pipeline. The report contains summaries and control-relevant evidence rather than the complete raw inventory.

Live Control Evidence

Metric	Value
Assessment Type	Live technical evidence assessment
Assessment Scope	Technical evidence observation only
Assessment Limitation	This PASS indicates successful observation of the technical evidence used by this test. It does not by itself certify full ISO 27001:2022 A.8.2 compliance. Organizational policies, approvals, access reviews, least-privilege requirements, joiner/mover/leaver processes, and other relevant evidence require separate assessment.
Evidence Source	Microsoft Entra ID / Microsoft Graph

Observed Assignments	2

Control

Metric	Value
Framework	ISO27001

Metric	Value
Version	2022
Control Id	A.8.2
Title	Privileged access rights
Status	PASS
Score	100
Coverage	100%
Reason	Live Microsoft Entra evidence was successfully collected and normalized. High-privilege directory roles and their assigned members were identified, providing direct technical evidence relevant to assessment of privileged access rights.

Directory Role Evidence

Role	Resource Id	Is High Privilege	Assignment Count	Members
